

LASERSTAR[®] VENUS CALIENTE

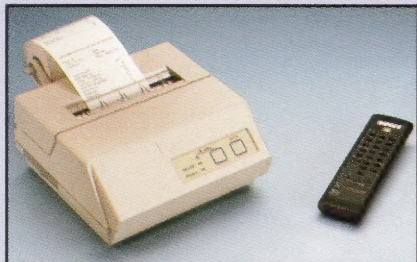

TURNING HEADS • TURNING HEARTS • TURNING PROFITS.

The ROWE/AMi LaserStar Venus Caliente is undoubtedly the most beautiful CD Jukebox we've ever created. So beautiful, in fact, your customers won't be able to resist it. And the more they play, the more profits you make. For the love of money, fall in love with Venus—the Laserstar Venus Caliente. See your local ROWE/AMi music operator for details.

LASERSTAR® VENUS CD-100F

LaserStar Venus' NEW title display is designed to merchandise music and stimulate maximum customer play.

- Twelve full-sized CD jackets are displayed beside easy-to-read title strips and highlighted by theatrical halo lighting.
- The motor-driven pages flip vertically for easier reading and will accommodate up to 100 CD albums and title strips.
- In the "attract mode," the title pages turn automatically or move to a specific page number.

Atop the LaserStar Venus and within a multi-reflective enclosure, three discs rotate in a rainbow of colors for dramatically increased excitement and impact.

Set on AUTOPLAY, the LaserStar Venus automatically plays a random or pre-selected track at specific time intervals.

Integrate the LaserStar Venus with ROWE/AMi Wallette units and add the advantage of remote selection to any location.

Equipped with a reliable ROWE Bill Acceptor, the LaserStar Venus takes \$1 and \$5 bills and has a 500 bill stacker.

LaserStar Venus' optional remote control is the most advanced available. Remote selection, volume and reject controls are just a few of its features.

The optional printer kit provides full MIS reports that include: cash totals, selection frequency of each track and album, and the condition of every disc. Recommended printers may be purchased in your local marketplace.
